HEINITSH'S QUEEN'S DELIGHT. Liver Complaint Cured by Queen's Delight.

Delight.

The symptoms of Liver Complaint are uneasiness and pain in the right side, and soreness upon touch immediately under the inferior ribs; inability to lie upon the left side, or, if at all, a dragging sensation is produced which seriously affects respiration, causing, very often, a troublesome cough. Together with these symptoms, we perceive a coated tongue, acidity of the stomach, deficiency of perspiration, and sometimes a sympathetic pain in the shoulder, with a great disposition in the shoulder, with a great disposiacting of the stomach, deficiency of perspiration, and sometimes a sympathetic pain in the shoulder, with a great disposition to sleep, and depression of spirits, and sometimes sores in the mouth or throat. These symptoms, if permitted to continue, will eventually produce consumption, the most baneful of all diseases.

Dyspepsia.

produce disease of the heart, skin, lungs and kidneys. It is owing to the same cause that thousands die with Cholera, Bilious or Yellow Fever, and that most baneful disease, Consumption.

The origin of numerous cases of Consumption is in paired digestion; and many, many cases of supposed Consumption could be entirely cured by the use of the QUEEN'S DELIGHT, as the emaciation, debility and cough attending weakness of the digestive organs are so near allied to the symptoms of Consumption, that the one disease is frequently mistaken for the other.

Notice.

Notice.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health, or, to use their own expression, "never feel well." They are languid, devoid of all energy, extremely nervous and have no appetite. To this class of invalids, the Quec."'s Delight is especially recommended. Their peculiar tonic and invigorating properties render it invaluable in such cases. The patient should immediately discard all pills and powders, as they only weaken the system, and resort to the use of the Queen's Delight, the invariable result of which will be a strong and hearty constitution, a disappearance of all nervousness, a good appetite and a perfect restoration to health.

Weak and delicate children are made strong by using the Queen's Delight. In fact, it is a Family Medicine; it can be administered with perfect safety to a child three months old, the most delicate femals or a man of ninety.

Jacob C. Lyons, Executor, vs. Wilson Glover and wife.—Bill to Foreclose Mort-

Dyspepsia.

The symptoms of Dyspepsia are various; those affecting the stomach are nausea, heart-burn, loss of appetite, disgust for food, sometimes a deprayed appetite, sense of fulness or weight in the stomach, sinking or fluttering in the pit of the stomach, sour cructations, coated tongue, acidity of the stomach, hurried and difficult breathing, &c.

The sympathetic affections are very diversified—cold feet, pain or weakness through the limbs, swimming of the head, sudden flushes of heat, &c.

The use of the QUEEN'S DELIGHT should be persevered in until every symptom of Dyspepsia has vanished, and health is entirely restored.

Derangements of Liver and Stomach

Are sources of insanity. From disorder or obstruction, a morbid action of the sympathetic and other nerves follows, and the functions of the brain are impaired and deranged; derangement there will also produce disease of the heart, skin, lungs and kidneys.
